

Storage Rack

- Make sure the rack is positioned on a flat surface before you load any Opløft Sit-Stand Platforms.
- Apply the wheel brakes before loading or unloading.
- When sliding an Opløft into the rack, make sure the flat surface is facing the guide wheel (as shown in the diagram above).
- While sliding an Opløft out of the rack, follow the suggested hand positions shown in the diagram below and on the storage rack.
- Be careful not to knock the Opløft levers when loading or unloading.
