

Q-doc 415 Satin

More comfort by working in alignment.

 BAKKER ELKHUIZEN

Work Smart - Feel Good

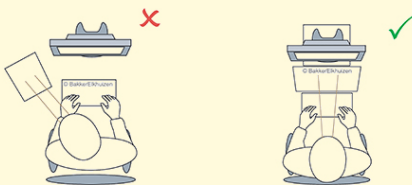

Prevent neck strain by placing documents in front of you.

Computer work takes a lot out of your body. By making small adjustments you can work more comfortably and have fewer complaints.

This adjustable document holder, the Q-Doc 415, is placed between the screen and the keyboard. This prevents unnatural head and neck motions.

To prevent neck rotation, documents have to be placed between the keyboard and display screen. A sloping work surface reduces flexion of the neck and thus increases work comfort.
