WARNING

- Do not use this product for any purpose other than that for which it was designed
- Ensure desk/work surface is suitable to take the weight of the arm and monitor
- Supported weight must not exceed the maximum load per arm
- Take care when installing as fingers could become trapped

MAINTENANCE AND INSPECTION

- Ensure all screws are tightened and occasionally adjust if needed
- Ensure arm is pushed fully down onto the clamp before installing the monitor
- Clean with a damp cloth, NO solvents

DISCLAIMERS

- The use of power tools, lever bars or excessive force during the installation, or re-configuration of the product will invalidate your guarantee
- Failure to observe the recommendations in the use, and configuration of these products may affect your guarantee
- As a part of Colebrook Bosson Saunders ongoing product improvement programme the design of products may change without prior notice and details may vary from those illustrated

Please consider leaving these instructions with the product if further installation may be required by others

DYN-013-C207-INST-B SEPT 2020

Reconfiguring the 180° stop function

The Pelmo clamp base is factory fitted with a 180° stop feature. You can permit 360° or 90° rotation by simply pulling the bush and stop ring from the clamp and repositioning the stop feature as shown.

USEFUL TIP:

Please consider retaining the unused top ring in case the clamp needs to be reconfigured in the future.

180° rotation configuration
