

# Jolly Back Chair

The award-winning Jolly Back Chair is an innovative low seating solution, designed by a Chartered Physiotherapist, for adults working at low heights.

It improves comfort, posture and helps prevent and reduce back pain, muscle and joint aches (primarily in the neck, shoulders, knees and hips) by addressing the challenges of sitting at child height, bending over and kneeling at low tables.

Specifically designed to support low level sitting, the Jolly Back Chair promotes health, assists safety and contributes to the wellbeing of adults and the children they are caring for and working with.

## Low chair

Enables adult users to sit and work at the same height as children whilst having their spine comfortably supported in a natural upright posture. This is achieved through a combination of the seat wedge and back support.

## Fabric and Vinyl Covers

Waterproof, breathable and antibacterial fabric is hard-wearing, durable and washable, perfectly suited to children's environments and also pleasant to sit on. (Available in 7 colours)  
A waterproof, vinyl option is available.

## High quality, lockable wheels

Provide easy, smooth movement when seated and reduces twisting and sheering forces on discs as the Jolly Back chair moves with you.

## Tall backrest handle

Allows safe movement in standing without bending or lifting.

## Height adjustable lower back support

Working in combination with the seat wedge, the back support is quick and easy to adjust to give correct support, exactly where it's needed.

## Compact and unobstructed floor space underneath chair

Offers unrestricted movement, reduces trip hazard for users and children, and is ideally suited where space is limited.

# Jolly Back Chair

Jolly Back chairs are successfully supporting teachers, childcare practitioners, children's therapists, home educators and carers in schools, pre-schools, kindergartens, children's hospitals, in homes and the community.

Working with children is a privilege and we know there are daily challenges. At Jolly Back, we care about you as you care for others and are here to make working with children that little bit easier, safer and more comfortable.

## Customer Reviews

Extremely useful for working with groups of children around a low table.  
*Jo Young, Great Wood Primary School*

The staff were really impressed with how comfortable the Jolly Back chair is and how it immediately corrected their posture, making sitting more comfortable.  
*C. van de Laar-Newson, The British School of Amsterdam*

It's important to create a culture where staff feel valued and to support them at work. Since investing in our Jolly Back chairs, no-one has been absent with back pain.  
*Helen Smith, Larklands Infant and Nursery School*
