

RESPONSIV 150

Advanced technology helps you move intuitively while sitting in absolute comfort.

RESPONSIV 150
Mesh Back Chair

The Responsiv Mesh Back Chair is packed with design features to activate your core muscles, promote good posture and help with healthy circulation. Proven medical scanning shows that the chair's forward tilt motion can increase muscle activity in the stomach, hips and back — perfect if you're prone to aches and pains and spend a lot of time sitting down for work. Prolonged sitting without regular stretching and movement is linked to a higher risk of musculoskeletal injury and longer term health issues including type II diabetes, high blood pressure and heart disease.

FEATURES

- Future-ready chairs designed to keep you active and comfortable
- Stylish mesh back for breathability and support for the contours of your back
- Adjustable lumbar panel - change the height and depth to suit your lower back
- Flex-front deep cushioned seat padded with ergo-density moulded foam and specially designed sloped seat edge for supported comfort
- Ergonomic body balance synchro movement mechanism
Movement mechanism has 5 lockable positions and free-float mode
- User-friendly controls with single lever operation for tilt release, tilt lock and seat height
- Seat slide adjustment
- Black 5-star pyramid base with 60 mm castors
- Quick and easy 3-bolt assembly - 5 minutes to assemble
